Lern-/ Qualifikationsziele	<p>Die Wahlpflichtmodule dienen zum einen der Vertiefung der Kenntnisse und der wissenschaftlichen Arbeit in einem speziellen, von den Studierenden in einem gewissen Umfang selbst zu bestimmenden Themengebiet, zum anderen aber auch zum Erwerb von Übersichtswissen über angrenzende Themengebiete.</p> <p>Studierende eines Master-Studiengangs haben in der Regel einen heterogenen Werdegang hinter sich. Dies beginnt bereits mit der Ausbildung vor der Hochschule (Schule, berufliche Bildung) und setzt sich in unterschiedlichen Schwerpunkten im Bachelor-Studium und in den davor, dazwischen oder danach liegenden beruflichen Tätigkeiten fort. Im Rahmen des Studiengangs „International Project Engineering“ wird deshalb ein individueller Ansatz zur Festlegung der Module im Wahlpflichtbereich verfolgt. Jedem/r Studierenden des Master-Programms wird ein Professor/eine Professorin der Fakultät als Mentor/in zugewiesen. In Abstimmung mit dem Mentor/der Mentorin wählt der/die Studierende basierend auf seinen/ihren individuellen Vorkenntnissen und Interessen sein/ihr persönliches Curriculum im Wahlpflichtbereich aus. Der Mentor/die Mentorin hat dabei einerseits beratende Funktion, andererseits muss er/sie das Curriculum hinsichtlich Inhalte, Abdeckung der Ausbildungsziele und Ablauf verantworten und genehmigen. Dadurch wird sowohl die Studierbarkeit als auch die Qualität des gewählten Curriculums sichergestellt. Die Einzelheiten des Mentor-Konzepts sind in der Studien- und Prüfungsordnung festgelegt. Oberste Instanz bei der Festlegung des Curriculums der Studierenden ist der Prüfungsausschuss.</p>
