

Frontend Developer (React.Js) m/w/d - working student

About Knowunity:

Knowunity is the first, interactive platform for students in Europe. Students can view and download all really relevant school content such as summaries, learning slips, presentations, flashcards, solutions, elaborations etc. in all topics, subjects and grade levels, or ask questions directly to the people (often also students) uploading the content. With Knowunity, we want to set up the first, digital contact point for students for all their needs with many other features in the pipeline. After only 5 months as the fastest growing and most popular school app on the market in Germany more than 600,000 students are already using and loving Knowunity.

Together with well known investors we are advancing the vision of finally building a digital platform for students to give every pupil digital access to education. Founded by 5 students in 2019 out of our own problems we're now looking to advance this vision together with you:

Minimum qualifications:

- Very good knowledge and hands-on experience with React.js.
- Strong proficiency in Typescript
- Experience working with REST APIs, HTML, and CSS.

Preferred qualifications:

- Experience with styled-components
- Working proficiency in verbal and written English (or German).
- Practical experience with design, accessibility, and usability.

Responsibilities:

- Implement new features on our webapp.
- Ensure the continuous improvement of the user experience of our new products.
- Take care of our internal websites.
- You take ownership for the entire development cycle from testing to go live and always support your team to find the right story split as well as technical implementation
- Work in an existing SCRUM team.

About you:

- Motivated by ideating creative solutions to challenging problems.
- Ability to work in a fast-paced organization with 100 % dedication.
- Strong analytical and problem-solving skills.
- Excellent written and verbal communication skills.

Benefits:

- Impact on millions of students
- Opportunity to become an essential part in a fast growing company
- Appropriate payment
- Remote or in the office
- Team events and 100 % flexible working hours
- 100 % open-minded and transparent team culture

We're happily awaiting your application to benedict.kurz@knowunity.de
