

Course number: MIM 20210
Managing International
Complexity I
Study Level: Master / Graduate

Prof. Dr. Manfred Pollanz
Language of instruction: English
ECTS Credits: 6

Students recognize compliance-relevant structures, processes and conflicts of interest from the perspective of the various disciplines and functions in the company. They understand the significance of attitude towards and respect for rules as a prerequisite for compliance management process and goals for compliance and observance of rules. Students learn compliance + communication/corporate identity; implementation in practical case studies/workshop. Students know the basic structures of international accounting and international auditing.
