

## Announcement Doctoral Candidates @ HTWG Konstanz

Doctoral candidates planning a visit at the HTWG Konstanz – University of Applied Sciences in 2021 can apply for a scholarship offered within the framework of the DAAD project “Internationalisation of Universities of Applied Sciences (UAS.International)”. The scholarship is intended to help doctoral candidates cover the costs of their academic exchange at the HTWG Konstanz and is only available for those applicants not receiving a scholarship or funding from another institution. The stay offers recipients an opportunity to gain additional academic qualifications, but is not intended for starting or completing a PhD thesis at the HTWG Konstanz.

The scholarship includes both a mobility scholarship for travel expenses and financial support for a three-month-stay in Konstanz. The mobility scholarship ranges from 400 – 1,800 Euros, depending on the applicant’s country of origin. The monthly financial support amounts to 850 Euros. The scholarship is intended for one doctoral candidate planning to come in person to the HTWG Konstanz. Applications should include the following documents, which should be submitted in a single pdf document (max. 4 MB):

- Letter of motivation
- Curriculum Vitae
- Master’s degree diploma
- A letter of recommendation from the applicant’s supervising PhD advisor at his/her home university supporting the candidate’s participation in this academic exchange within the context of his/her dissertation.
- A letter of invitation from a HTWG Konstanz professor stating that the candidate can work on his/her dissertation project and will be supported by the professor during the stay.

All documents will be taken into consideration when the committee selects the scholarship recipient.

Please submit your complete application documents to project coordinator Dr. Barbara Landwehr ([barbara.landwehr@htwg-konstanz.de](mailto:barbara.landwehr@htwg-konstanz.de)). The application deadline is June 30, 2021. If you have any questions, please contact Mrs. Landwehr at the above email.

Selections will be made based on the following criteria: The applicant should display a high level of academic achievement along with social and intercultural competency. The selection process is based on equal opportunity and equity, and the selection committee welcomes applications related to all HTWG Konstanz academic programs.

Awarding of scholarships: Once selected, the recipient signs a contract stating that he/she accepts the scholarship. This contract also specifies the amount and length of the scholarship. After successfully completing the stay in Konstanz, the scholar will then receive a scholarship certificate denoting the type of scholarship and that it is specifically a DAAD scholarship.

For more information about the UAS.International project, please see: <https://www.htwg-konstanz.de/en/the-university/internationalization/>.
